

## **SOAP MAKING WORKSHOP (For beginners)**

### **Introduction**

In the last years the art of soap making had an incredible impact and there are a lot of people want to learn how to make at home soap. There are several reasons from the use of natural products in our health and skin care routine to the attention to nature and environment.

In this workshop you will learn about the process of soap making and also you will experiment how creative this can be. Furthermore learning how to make soap will let you save a lot of money as you dont have to buy anymore other detergents and you will be more conscious about the environmental impact due to the use of synthetic products. A good natural soap not only is useful to wash our skin but also nourishes it.

This workshop has a duration of 7 hours, starting at 10:00 am and finishing at 5:00 pm. We will use mainly extra virgin olive oil, as we are located in the sicilian countryside surrounded by olives, but we will also use other vegetable oils to show how to move on at home when you want to make a soap with other ingredients. Furthermore, you will be invited to personalize your soap by using local ingredients and plant extracts obtained directly from our farm.

The process you will learn is the “cold process” but you will learn also to make a reprocessed soap. Then, there is the possibility to use your creativity to make a personal recipe that you will use to make your own soap.

We will learn more about the soap berry tree and we will use as well the soap nuts to make natural detergents. To complete this experience, there will be a tour of our soap berry tree plantation and of our museum.

**EVERYBODY WILL TAKE BACK AT HOME ALL THE SOAP PRODUCED DURING THIS WORKSHOP!**

### **Where and when**

**April 15th, April 16th, May 20th, November 18th 2023** at Casa Museo del Sapone in Sciacca (AG), Sicily.
